BATMEN-Un Film de Wassim Sookia

Monday 21st of March 2016

An artistic representation by Wassim Sookia of the controversy surrounding fruit bats in Mauritius. It shows how people differ in their perception and behaviour towards bats from one extreme to the other: On one side, someone trying to protect his fruit crops at all cost. Then there are others defending bats against that person's evident greed and anxiety concerning his litchi tree. But perhaps the most interesting part presents how these bats themselves may certainly perceive the whole situation.
